...more about College of Sustainable Agriculture for Eastern Africa

College of Sustainable Agriculture for Eastern Africa is one of the few institutions training Sustainable Ecological Agriculture in Kenya. CSAEA is the technical training arm of SACDEP, an indigenous development organization operating in 14 counties in Kenya and two districts in Tanzania. After graduation, our students proceed to become:

1. Farm managers
2. Entrepreneurs in agribusiness
3. Certified organic growers of food, herbs, livestock and honey
4. Accomplished, healthy food processors
5. Instructors in schools and colleges
6. Field trainers
7. Research assistants

Relevant and innovative CSAEA students inspect sheep as part of their practical study routine (left) and participate in theoretical classes session (right)

Why study with us:

1. Course duration is 5 class semesters and 3 months industrial attachment. Total cost of tuition is Ksh 270,500
2. The total amount of scholarship for the first 50 students is Ksh 189,350 for the entire course duration which translates to Ksh 37,870 per semester
3. Total cost of tuition payable by student is Ksh 81,150 for the entire course duration translating to Ksh 16,230 per semester
4. Accommodation is available on campus as part of the fees
5. Organic food available on campus and is covered in the fees
6. Games, clubs, and academic tours available
7. Exchange programs with other institutions and organizations in and outside Kenya
8. Assured field attachment in SACDEP's development projects and other development agencies in and outside Kenya
9. Assured internship programmed by SACDEP upon graduation
10. Self-employment upon graduation
11. Employment opportunities with the Government local and International development agencies
